JULY 2023

## Why 67 Minutes?

**Mandela Day**, celebrated on July 18th, is a global call to action to embrace Mandela's values of democracy, freedom, equality, diversity, reconciliation, and respect. **The 67 Minutes concept**, which represents Mandela's public service, promotes unity, fosters a culture of service, and inspires change by encouraging individuals to **dedicate 67 minutes to helping others**. By doing so, we can contribute to making the world a better place, as Nelson Mandela dedicated his life to social justice. No action is too small to change the world, and Mandela Day serves as a reminder of the **power of small acts of kindness**.

Everyone can **rise above** their circumstances and **achieve success** if they are dedicated to and **passionate** about what they do

**Our children are the rock on which our future will be built, our greatest asset as a nation - Nelson Mandela**

## HOW CAN WE CREATE A BETTER FUTURE FOR OUR CHILDREN

### Sustainable Development Network

The idea of sustainable development is to use resources to satisfy human needs in the here and now without jeopardising the capacity of future generations to satisfy their own needs.

The SDN offers a venue for networking and access to data and research in the fields of sustainable development, health, welfare, and education and training for NGOs, the government, and professionals. The SDN advocates for initiatives and ways of living that will enable our children and their children to support themselves both now and in the future.
